

# The unlucky penny

Once upon a time there lived a beautiful princess who lived in a magical castle.

One day she was walking down the hall when she found a golden penny ,but what she didn't know is that this penny was an unlucky penny.

So she went down to the well to make a wish. What should I wish for thought?

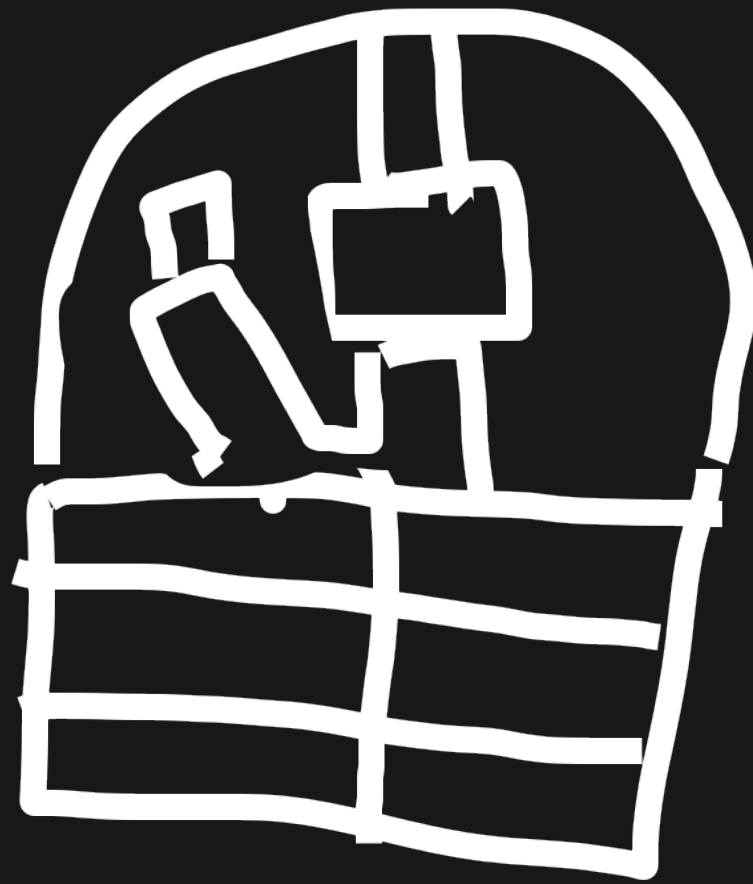

"I know I'll wish for good luck"!

As soon as she tossed it in she got bitten by a bee. "Oh maybe my luck hasn't come yet".

The next day she had bad luck again !  
So she told her Mum and dad Queen  
Robern and King Antony.

"Well what should we do "said the queen. "I know" said the king. I will order all the guards to go fetch that penny"!!!!

And she good luck for  
the rest of her life !!

THE  
END!
